RFP NUMBER 77-17

ADDENDUM NUMBER 2

September 25, 2017

Attention of all respondents is directed to the following addendum to this RFP:

Questions and Answers

- 1. Based on the proposal spread sheet provided, you have a monthly fee per site, over the life of the contract. Are you expecting the supplier to finance the equipment, engineering, installation etc. and recoup the cost over the life of the contract? See recommended spread sheet to factor in the initial cost of the RDU, NRE, and Installation etc. Let us know if this format is acceptable. Also, would like to have at least 3-4 days after receipt of you response to submit the proposal.**

Answer:

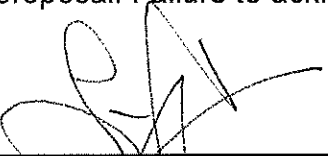

Yes, the amount would be financed. If the contract is terminated before the end of the term, any termination fees or equipment cost would be paid by the EP Water

- 2. The RDU, installed, shall become the property the EPWU and be left at the sites upon termination of contract. A removal fee, if desired will be applied to remove the unit. Is this acceptable?**

Answer:

If the RDU is as what the contract refers to SVU; then no fee would be required. Per addendum 1 the equipment would become part of EP Water property and no removal of the equipment would be necessary.

Respondent shall acknowledge receipt of this addendum and submit this acknowledgment with their proposal. Failure to acknowledge addendum(s), may result in rejection of proposal.
